### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Claims 1 – 16 are allowable over prior art of record. The prior art of record failed to disclose a method of approximating log likelihood ratio metrics for a plurality of turbo encoded symbols, the plurality of symbols having been modulated with M-array phase keyed signal constellations having gray code labeling, the method comprising the steps of applying a product of a first number and a second number to the complex-valued modulation symbol soft decision to obtain log-likelihood ratio metrics from remaining code symbols of the modulation symbol, the first number being dependent on a magnitude of the complex-valued modulation symbol soft decision, and the second number being dependent on a phase of the complex-valued modulation symbol soft decision as claimed in independent claim 1 and similarly claimed in independent claim 6, 11 and 12. Thus claims 1 –16 are novel and unobvious over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
